### TRAINING TIPS

- Doing a hill workout every other week will really help prepare you for a trail run, my favorite is 10 hills x 1 minute and recover on the downhill
- It's great to try adding in some injury prevention strength and stretching to your week
- Try to do at least one of your runs per week on trails - Theo Loopers is a free trail running group that meets weekly, 8am Saturday at The Trailhead (Note: Theo Loopers have a group of hikers as well if that's more your speed)
- Your Sunday hike can be replaced with some cross training if you like to mix things up
